

PRAIRIE THERAPY

Treatment Space Available!

At Prairie Therapy we are dedicated to keeping people active. Started in 2010, we have added to the team as we have found team members that fit in. Our team is currently made up of Certified Athletic Therapists, Osteopathic Manual Therapists, Registered Massage Therapists, Traditional Chinese Medicine, and Acupuncturists. Although we may have different schooling, everyone on the Prairie Therapy team is committed to getting the right patient in with the right provider.

We are in the process of expanding into more space, and are looking for therapists that would fit into our corporate culture. Prairie Therapy believes that fitting in with our team of professionals is more important than the certifications after your name. Our monthly incentive program is geared towards promoting the clinic versus the individual. This is because we know that the busier we all are, the busier an individual is. If you are interested in joining a true team of health care providers, we want to hear from you.

While at Prairie Therapy, everything will be provided for you. From clinic supplies to marketing materials and business cards; there are no added expenses. We also offer online booking, direct billing (as able), full time reception, and linen service for all of our practitioners. If you think there is something we are missing, we want to work to make it possible.

Requirements:

- We are looking for health care professionals that are certified in their respective profession, with their own professional liability insurance, and current First Aid and CPR training (HCP level preferred).
- Experience in a clinical setting is essential.
- Basic computer skills are required (Microsoft Office, as well as online programs)
- Must be very service oriented and able to work with many different types of patients and people
- Ability to interact professionally and effectively with people at all levels (students, staff, coaches, nurses, and doctors)
- Ability to work independently, as part of a larger team model

There are no closing dates for applications, as we would always make it work to add the right team member. However, we do have an Osteopathic Manual Therapist going on Maternity Leave starting sometime in early May. Our Osteopath is currently seeing approximately 20-30 people per week. We are looking for someone to manage her existing clientele while she is away, as well as continue on with us after she has returned to work.

Please send all cover letters and resumes to John Reinbolt & Brandon Thome at: info@prairietherapy.ca
